THIS SECTION FOR OFFICE USE ONLY

This application has been reviewed by the staff of the Los Angeles Department of City Planning in accordance with the provisions of Section 30610 of the California Coastal Act. A determination has been made that a Coastal Development Permit is not required for the preceding described project based on the fact that it does not: (1) involve a risk of adverse environmental effect, (2) adversely affect public access, or (3) involve a change in use contrary to any policy of this division pursuant to Title 14 of the California Administrative Code, and qualifies for an exemption under one or more of the categories checked below.

- Improvements to Existing Single-Family Residences.** This includes interior and exterior improvements, additions, and uses which are accessory to a single-family residence (e.g. garages, pools, fences, storage). This does not include the increase or decrease in the number of residential dwelling units (including guest houses), or retaining walls or pools that may have a potential significant impact on coastal resources (i.e. viewable from the public right-of-way, involves a significant amount of grading or boring in Hillside, Landslide or Special Grading areas), which may be reviewed on a case-by-case basis.
- Improvements to Any Existing Structure Other Than A Single-Family Residence.** For duplex or multifamily residential uses, this includes interior and exterior improvements, additions and uses which are accessory to the residential use (e.g. garages, pools, fences, storage sheds), but does not include the increase or decrease in the number of residential dwelling units, or retaining walls or pools that may have a potential significant impact on coastal resources (i.e. viewable from the public right-of-way, involves a significant amount of grading or boring in Hillside, Landslide or Special Grading areas), which may be reviewed on a case-by-case basis. For non-residential uses, this includes interior and exterior improvements and building signage (excluding pole, pylon and off-site signs), but does not include any addition of square footage or change of use (to a more or less intense use).
- Repair or Maintenance.** This includes replacement, repair and/or maintenance activities (i.e. re-roofing, replacement of equipment, etc.) which do not result in any changes, enlargement or expansion.
- Demolitions required by LADBS.** This includes projects which have been issued a Nuisance and Abatement or Order to Comply by the Department of Building & Safety requiring demolition due to an unsafe or substandard condition. Please attach the Building & Safety Notice.

This exemption in no way excuses the applicant from complying with all applicable policies, ordinances, codes and regulations of the City of Los Angeles. This exemption shall not apply if the project is not consistent with local land use regulations. If it is found that the project description is not in conformance with the actual project to be constructed or is not in conformance with Section 30610 of the California Coastal Act, this exemption is null and void.
